

## Let's Talk Disaster Resilience

By: Marge Jozsa, President, Board of Directors, STCEVC

### Article 4 May 2020

Our preparedness and resiliency efforts are paying off. As of today, Tillamook County's Covid-19 affected individuals remain in single digits with no deaths. We are social distancing, wearing masks and washing hands. We are stemming the tide of this virus. However, this is not over. We must keep up our efforts!!

There are many people helping the residents of our community during this unbelievable time. The South Tillamook County Emergency Volunteer Corps wants to especially thank:

\*Those wonderful individuals who have been making hundreds of cloth masks for the hospital and for our residents:

Patti and Rich Albright  
Marie Wand  
Sharon Nutting  
Linda Sherman

Dee Ashford  
Mary Jo Marsh  
Virginia Johnson

\*The residents of Pacific Sand Heights and the members of our Community Emergency Response Team (CERT) for collecting food for the Pacific City Food Bank.

\*Nestucca Volunteer Firefighters Association for committing to financially support the food pantries and Grateful Bread as they work to ensure that no one in our community goes hungry.

\*Brian Moore and his staff at Chester's Market for ensuring that we can shop safely in our community.

\*Our food pantries, the Pelican Pub and Grateful Bread for feeding so many residents of our South County community.

I am sure there are many more wonderful individuals in South County who are helping others.

To each and every one of you, we shout out

**THANK YOU! You are South County Heroes!!**
